Supplement Solutions

ABOUT US

Supplevit, a sub-brand of Mirpain, was established to contribute to the global fight against malnutrition by reducing costs and enhancing food security. Supplevit is dedicated to innovation, focusing on the R&D of vitamins and minerals to enhance their application in the food and beverage industry.

PRODUCTS

- Tablets & Capsules & Effervescent
- Powder Form & Liquid Supplements
- Soft Gels & Gummies
- Food Replacements
- Syrups

LABORATORY

HPLC

We use HPLC to precisely separate and measure the vitamins in our premixes, ensuring accurate content and quality in each batch.

- Vitamin B Groups Analysis (B1, B2, B3, B5, B6, B7, B9, B12)
- Vitamin C (Ascorbic Acid) Analysis
- Fat Soluble Vitamins (Vitamin D, Vitamin E, Vitamin K and Vitamin A)
- Active Ingredients and Colorants

ICP-OES

With ICP-OES, and AAS, we analyze and quantify the mineral content in our products, guaranteeing compliance with nutritional standards.

- Mineral Analysis
 - Heavy Metal Analyses
- We conduct heavy metal analysis for our final products and raw materials.

MICROBIOLOGICAL ANALYSIS

We conduct comprehensive microbiological testing on our final products and raw materials to ensure safety and quality.

Our rigorous testing guarantees that our products meet Food Safety Standards

- Caffeine
- D-Glucuronolactone
- Inositol
- Botanical Extracts
- Omega – 3
- Prebiotics
- Probiotics

CONCEPT PREMIXES FOR YOUR NEEDS

As Supplevit, we provide customized concept solutions for your supplement needs. Some of the examples are as follows:

KIDNEY SUPPORT

Our Kidney Support Premixes are specially formulated to promote optimal kidney function and overall urinary tract health. Combining a blend of scientifically backed herbs and nutrients, it helps maintain healthy fluid balance, supports natural detoxification processes, and protects kidney tissues from oxidative stress.

PERFORMANCE AND SPORT

Our Performance & Sport Premixes are designed to enhance energy, endurance, and recovery for athletes and active individuals. Formulated with high-quality ingredients, it supports muscle strength, reduces fatigue, and optimizes physical performance during intense training.

DIGESTION SYSTEM SUPPORT

Our Digestive Support Premixes are expertly crafted to promote a healthy gut, improve nutrient absorption, and ease digestive discomfort. With a balanced blend of enzymes, probiotics, and natural herbs, it supports regular bowel movements and overall gastrointestinal wellness. Ideal for maintaining a smooth and efficient digestive system.

IMMUNE SUPPORT

Our Immune Support Premixes are formulated to strengthen the body's natural defenses and promote year-round wellness. Packed with essential vitamins, antioxidants, and immune-boosting herbs, it helps protect against daily stressors and supports a balanced immune response.

JOINT HEALTH

Our Joint Health Supplement is carefully formulated to support flexibility, mobility, and long-term joint comfort. Featuring key ingredients like glucosamine, chondroitin, and anti-inflammatory herbs, it helps maintain healthy cartilage and reduce stiffness.

TABLETS & EFFERVESCENT

Syrups For Kids

POWDER FORM & LIQUID SUPPLEMENTS

We develop tailor-made micronutrient premixes specifically designed for powder and liquid supplement formulations. Our expertly formulated blends ensure compatibility, solubility, and stability across a wide range of applications such as protein powders, pre-workout blends, collagen drinks, electrolyte gels, or multivitamin syrups.

SOFT GELS & GUMMIES

We develop customized micronutrient premixes tailored for the unique formulation needs of soft gels and chewable gummies. Our solutions are designed to ensure optimal bioavailability, taste, texture, and stability, while meeting the strict quality and regulatory standards required for these popular dosage forms.

From concept to formulation, we support supplement manufacturers in creating innovative, high-quality products that stand out in today's competitive market.
